### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul Greeley on June 10, 2004.

The application has been amended as follows:

On line 1 of claims 39-43, *changed* "MTO" to --the crude oil--.

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

No prior art of record discloses or renders obvious a process for producing a mineral turpentine oil having a saybolt color better than +20 from a crude oil wherein the crude oil is distilled to produce kerosene/aviation turbine fuel cut (ATF) which is then subjected to Merox treatment to remove mercaptan from the cut. The treated cut is then distilled to obtain MTO which is then contacted with an adsorbent to improve saybolt color.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
